

Pages Structure

Final Organizer Requirements

Event Type → Date & Time → Venue → Crew Size/Roles → Budget → Skills → Proximity → Availability → Experience Level → Priority

Final Freelancer Registration

- Full Name
- Email / Phone
- Password
- Profile Photo
- Skills
- Experience Level
- Years of Experience
- Location
- Availability
- Expected Rate / Fee
- Previous Event Experience

Clean and sufficient for the MVP.

Organizer Dashboard

Top

- Welcome / Organizer name
- + Create Event — primary CTA

Overview

- Active Events
- Total Applicants
- Crews Assembled
- Upcoming Events

My Events

Each event shows:

- Event name
- Date
- Status: Draft / Published / Hiring Complete
- Applicants
- Budget
- Crew status

Quick Actions

- Create Event
- View Applicants
- Review AI Recommendations

Create Event

I'd structure it as a simple form:

1. Basic Details

- Event Name
- Event Type
- Date & Time
- Venue / Location

2. Crew Requirements

- Roles / Crew Size
- Required Skills
- Experience Level
- Availability

3. Budget

- Total Budget
- Preferred/maximum rate per freelancer (*optional*)

4. Matching Preferences

- Proximity
- Priority

5. Review & Publish

- Preview all requirements
- Publish Event

Next: Event Details / Published Event

Once the organizer publishes an event, this page should show:

- Event Name & Type
- Date, Time & Venue
- Budget
- Crew Requirements
- Skills & Experience Required
- Proximity / Availability
- Priority
- Current Applicants — e.g. 11 Applicants
- Event Status — Published / Hiring Complete

Next: Applicant Pool

Show everyone who applied to the event.

Each applicant card:

- Name + Profile Photo
- Skills
- Experience
- Location
- Availability
- Expected Fee
- Compatibility Score
- Application Status

Primary CTA: Run AI Matching

Also provide:

- Filter
- Sort
- Select Manually

Next: AI Crew Recommendation

Muster analyzes all applicants and presents the **best-fit crew**.

Show:

- **Recommended Crew:** 8 / 10 members
- Overall Match Score
- Total Crew Cost
- Budget Remaining
- Requirement Coverage
- Individual Match Scores
- Why each freelancer was selected

Primary CTA: [Approve Crew](#)

Other options:

- [Find Another Crew](#)
- [Choose Manually](#)

Next: Final Crew / Event Management

After approval, show the confirmed crew:

- **Final Crew Members**
- Assigned Role
- Fee
- Match Score
- Availability
- Contact / Message
- Crew Total Cost
- Remaining Budget

Event Status: [Crew Assembled](#)

Primary CTA: [Manage Event](#)

Next: Freelancer Dashboard

The freelancer sees:

- Available Events
- Event Name
- Date & Venue
- Required Skills
- Budget / Expected Fee
- Proximity
- Apply button

My Applications

- Applied Events
- Application Status:
 - Pending
 - Shortlisted
 - Selected
 - Rejected

Primary CTA: [Browse Events](#)

Next: Event Details — Freelancer View

Show:

- Event Name & Type
- Date, Time & Venue
- Required Roles
- Required Skills
- Experience Level
- Budget / Expected Fee
- Proximity
- Event Description

Primary CTA: [Apply to Event](#)

Next: Application Status

The freelancer sees:

- Event Name
- Application Date
- Applied Role
- Expected Fee
- Status
 - Pending
 - Shortlisted
 - Selected
 - Rejected

If Selected:

Congratulations! You've been selected for this event.

Primary CTA: [View Event / Crew Details](#)

Next: Freelancer Profile

The freelancer can view/edit:

- Profile Photo
- Full Name
- Skills
- Experience Level
- Years of Experience
- Location
- Availability
- Expected Rate / Fee
- Previous Event Experience

Primary CTA: [Edit Profile](#)

Next: Notifications

A shared page for both Organizer and Freelancer.

Show:

- New applications
- AI matching completed
- Crew selection updates
- Application status changes
- Event updates
- Important alerts

Keep it simple: **notification list + unread indicator.**

Next: Login

Shared login page for both roles.

- Email / Phone
- Password
- **Login**
- Forgot Password?
- Don't have an account? → **Register**

After login, Muster directs the user to the appropriate **Organizer or Freelancer Dashboard.**

Next: Registration

The user first chooses their role:

Who are you?

- **Event Organizer**
- **Freelancer**

Then show the appropriate registration form we already defined.

Primary CTA: [Create Account](#)

After registration → respective **Dashboard.**

Muster — Navigation Structure

Keep it role-based and minimal.

Organizer

Sidebar

- Dashboard
- My Events
- Create Event
- Applicants
- Crew
- Notifications
- Profile
- Settings

Main journey

Dashboard → Create Event → Event → Applicants → AI Matching → Final Crew

Freelancer

Sidebar

- Dashboard
- Browse Events
- My Applications
- Notifications
- Profile
- Settings

Main journey

Dashboard → Browse Events → Event Details → Apply → Application Status

Global

Top bar

- Muster Logo
- Notifications
- Profile Avatar
- Logout

Important UX decision

AI Matching should NOT be a permanent sidebar item.

It should appear contextually:

Event → Applicants → Run AI Matching → AI Crew Recommendation

This keeps the navigation clean and makes the AI feel like part of the workflow rather than a separate feature.
